

EGGEKOLLEN

FLYING SITE INFORMATION

59° 49' 35" N, 10° 11' 23" E

Non-emergency police: 02800

TAKE-OFF

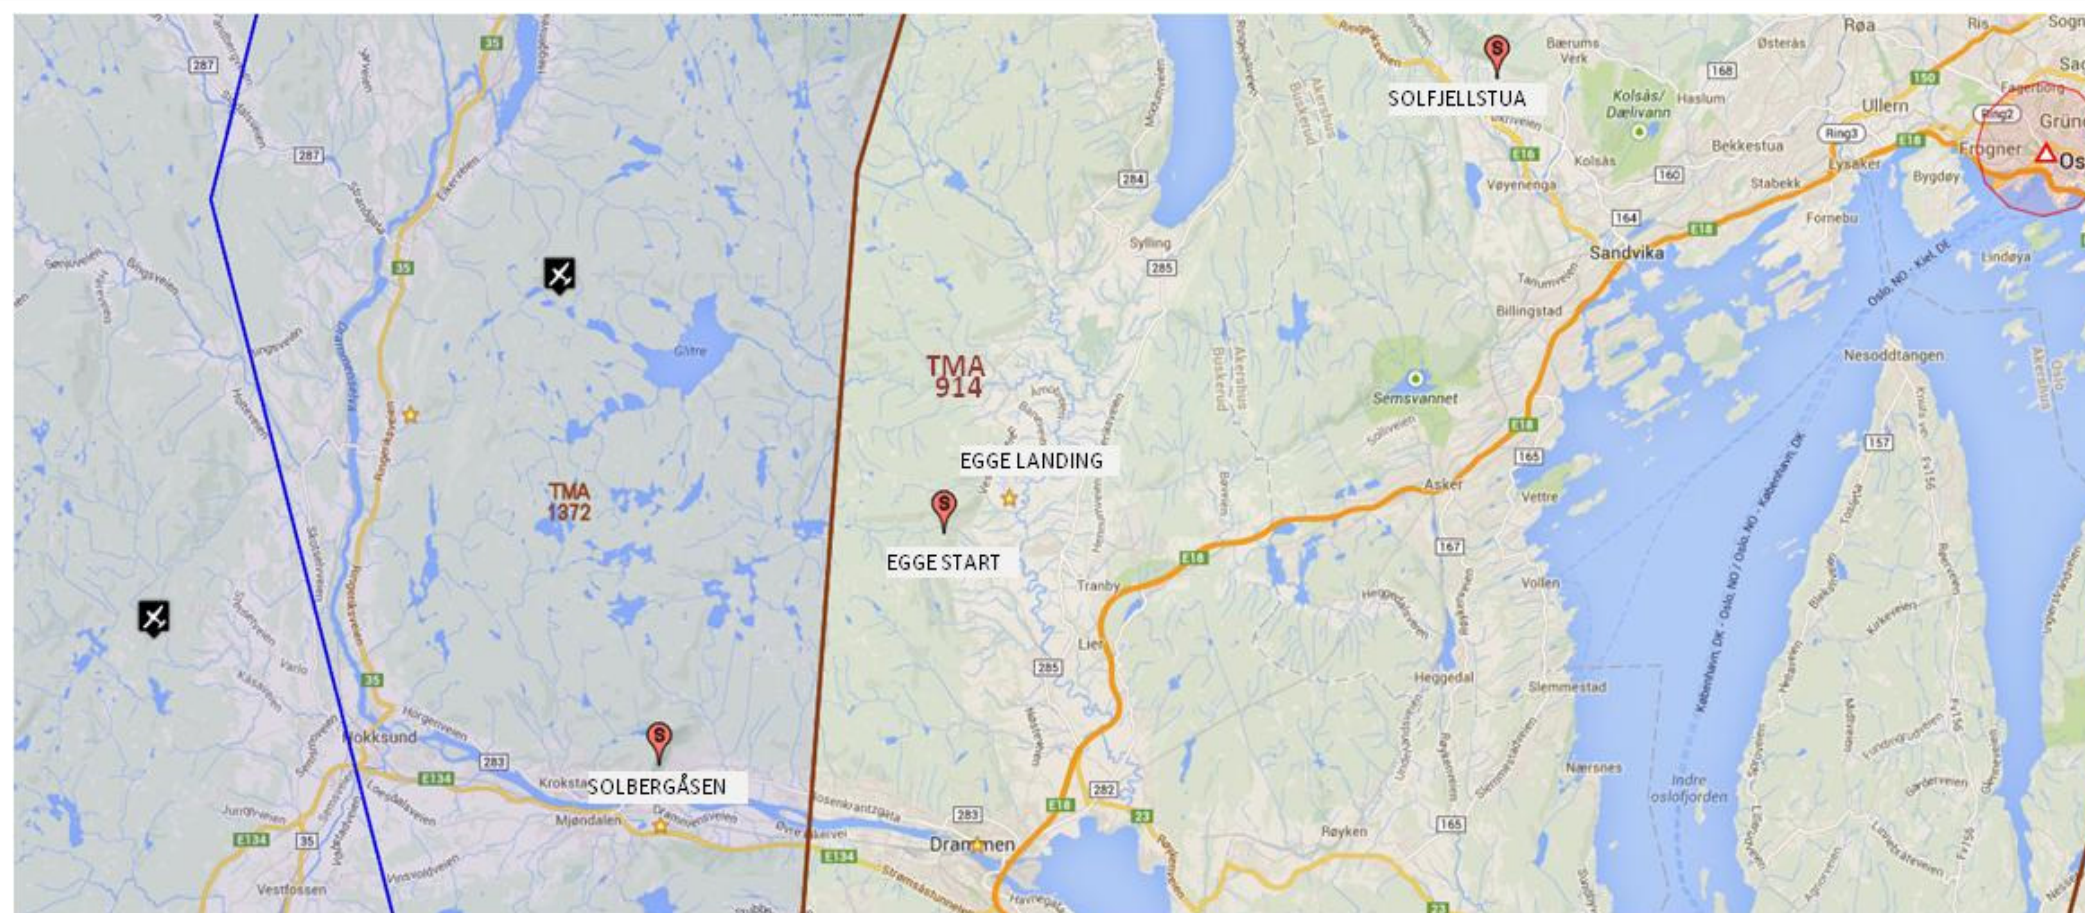

Min. certification: PP3/SP3
Max. altitude (TMA): 914 m.a.s.l.
Take off altitude: 460 m.a.s.l. (410 m top-to-bottom).
Orientation: SE-S
Note: The steep cliff edge requires good wing control and adequate running speed. Be prepared for a strong vertical drag when you pull up the wing in high winds. Be careful when you lay out the wing on the rocks in the rear part of the take-off. The lines might tangle and break when you pull up the wing. This is a popular flying site. Pay attention and be aware of the traffic rules.
Airspace boxes: None above take off (see map below).
Radio frequency HP/NLF: 154.175 MHz

LANDING

Landing: Landing is along Baneveien, 2.2 km from Vestsidevegen towards North-East in the field next to blue buildings (see map). Landing site may be used any time of the year, even with crops in the field.
Note: Be aware of turbulence and wind on landing. Landing should be made north of tractor track (see map).
NO LANDING in fields nearest start (Torstad), except:

- when ground is snow-covered
- if other temporary information is given on club web-pages

Parking: Parking for 4-5 cars next to landing field. No parking by greenhouses at Torstad.
